

YAMAHA

ELECTRIC GUITARS & BASSES

In the beginning, guitar is for fun. When it becomes more than fun, it's for real. Practicing, playing, it's always with you. You can hear it even when you're walking to the corner. You're living guitar.

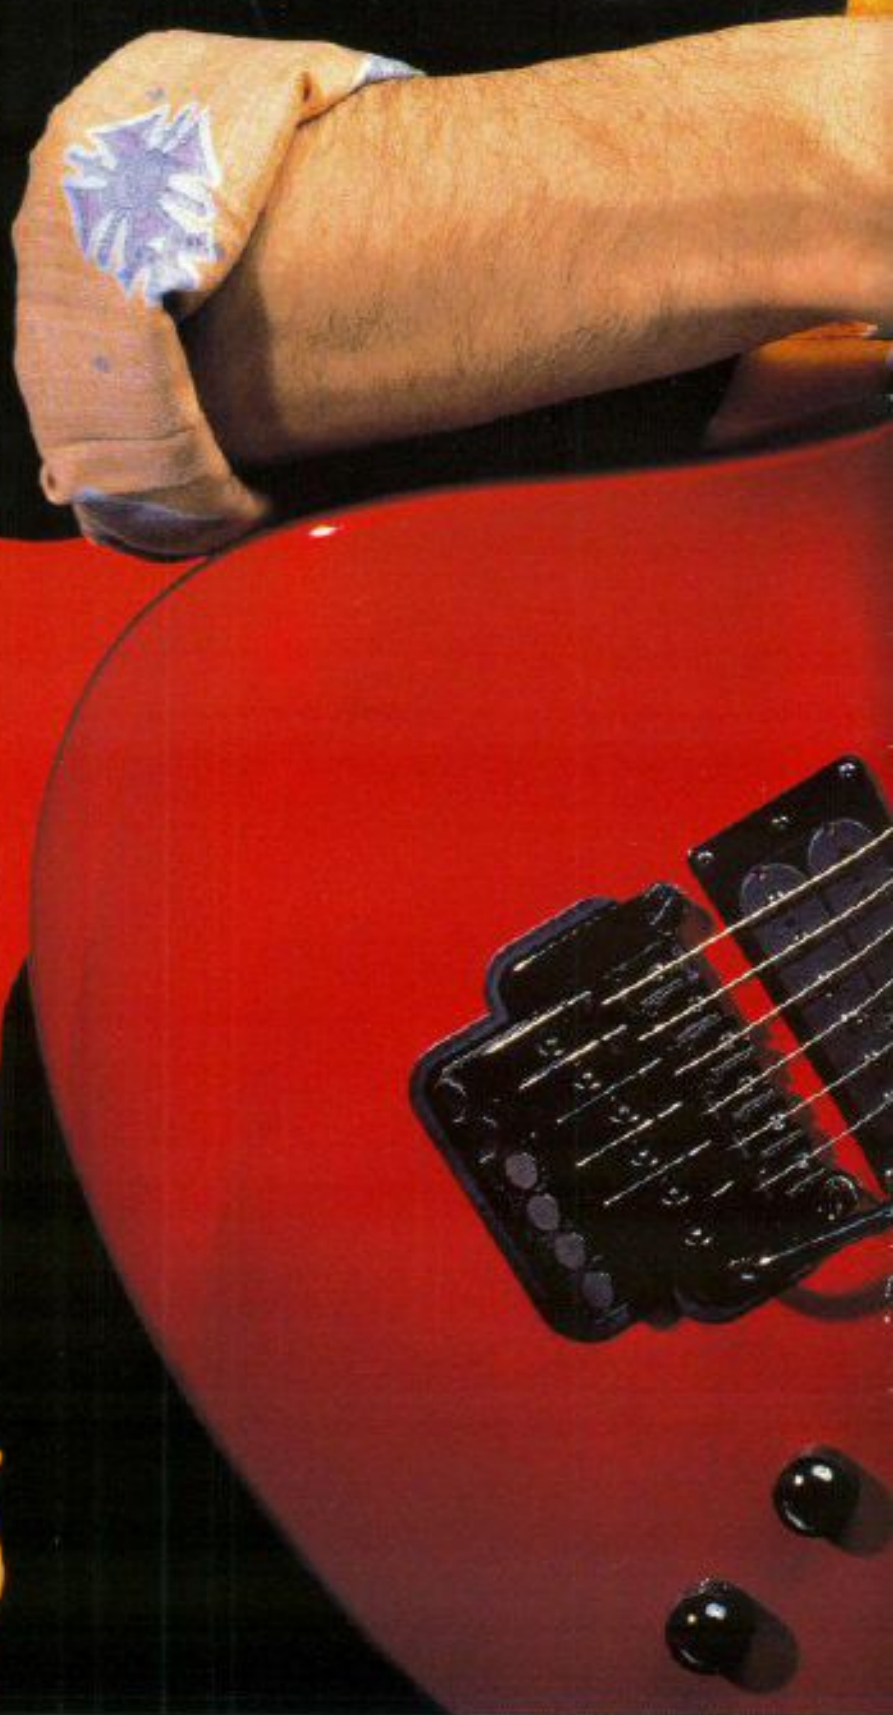

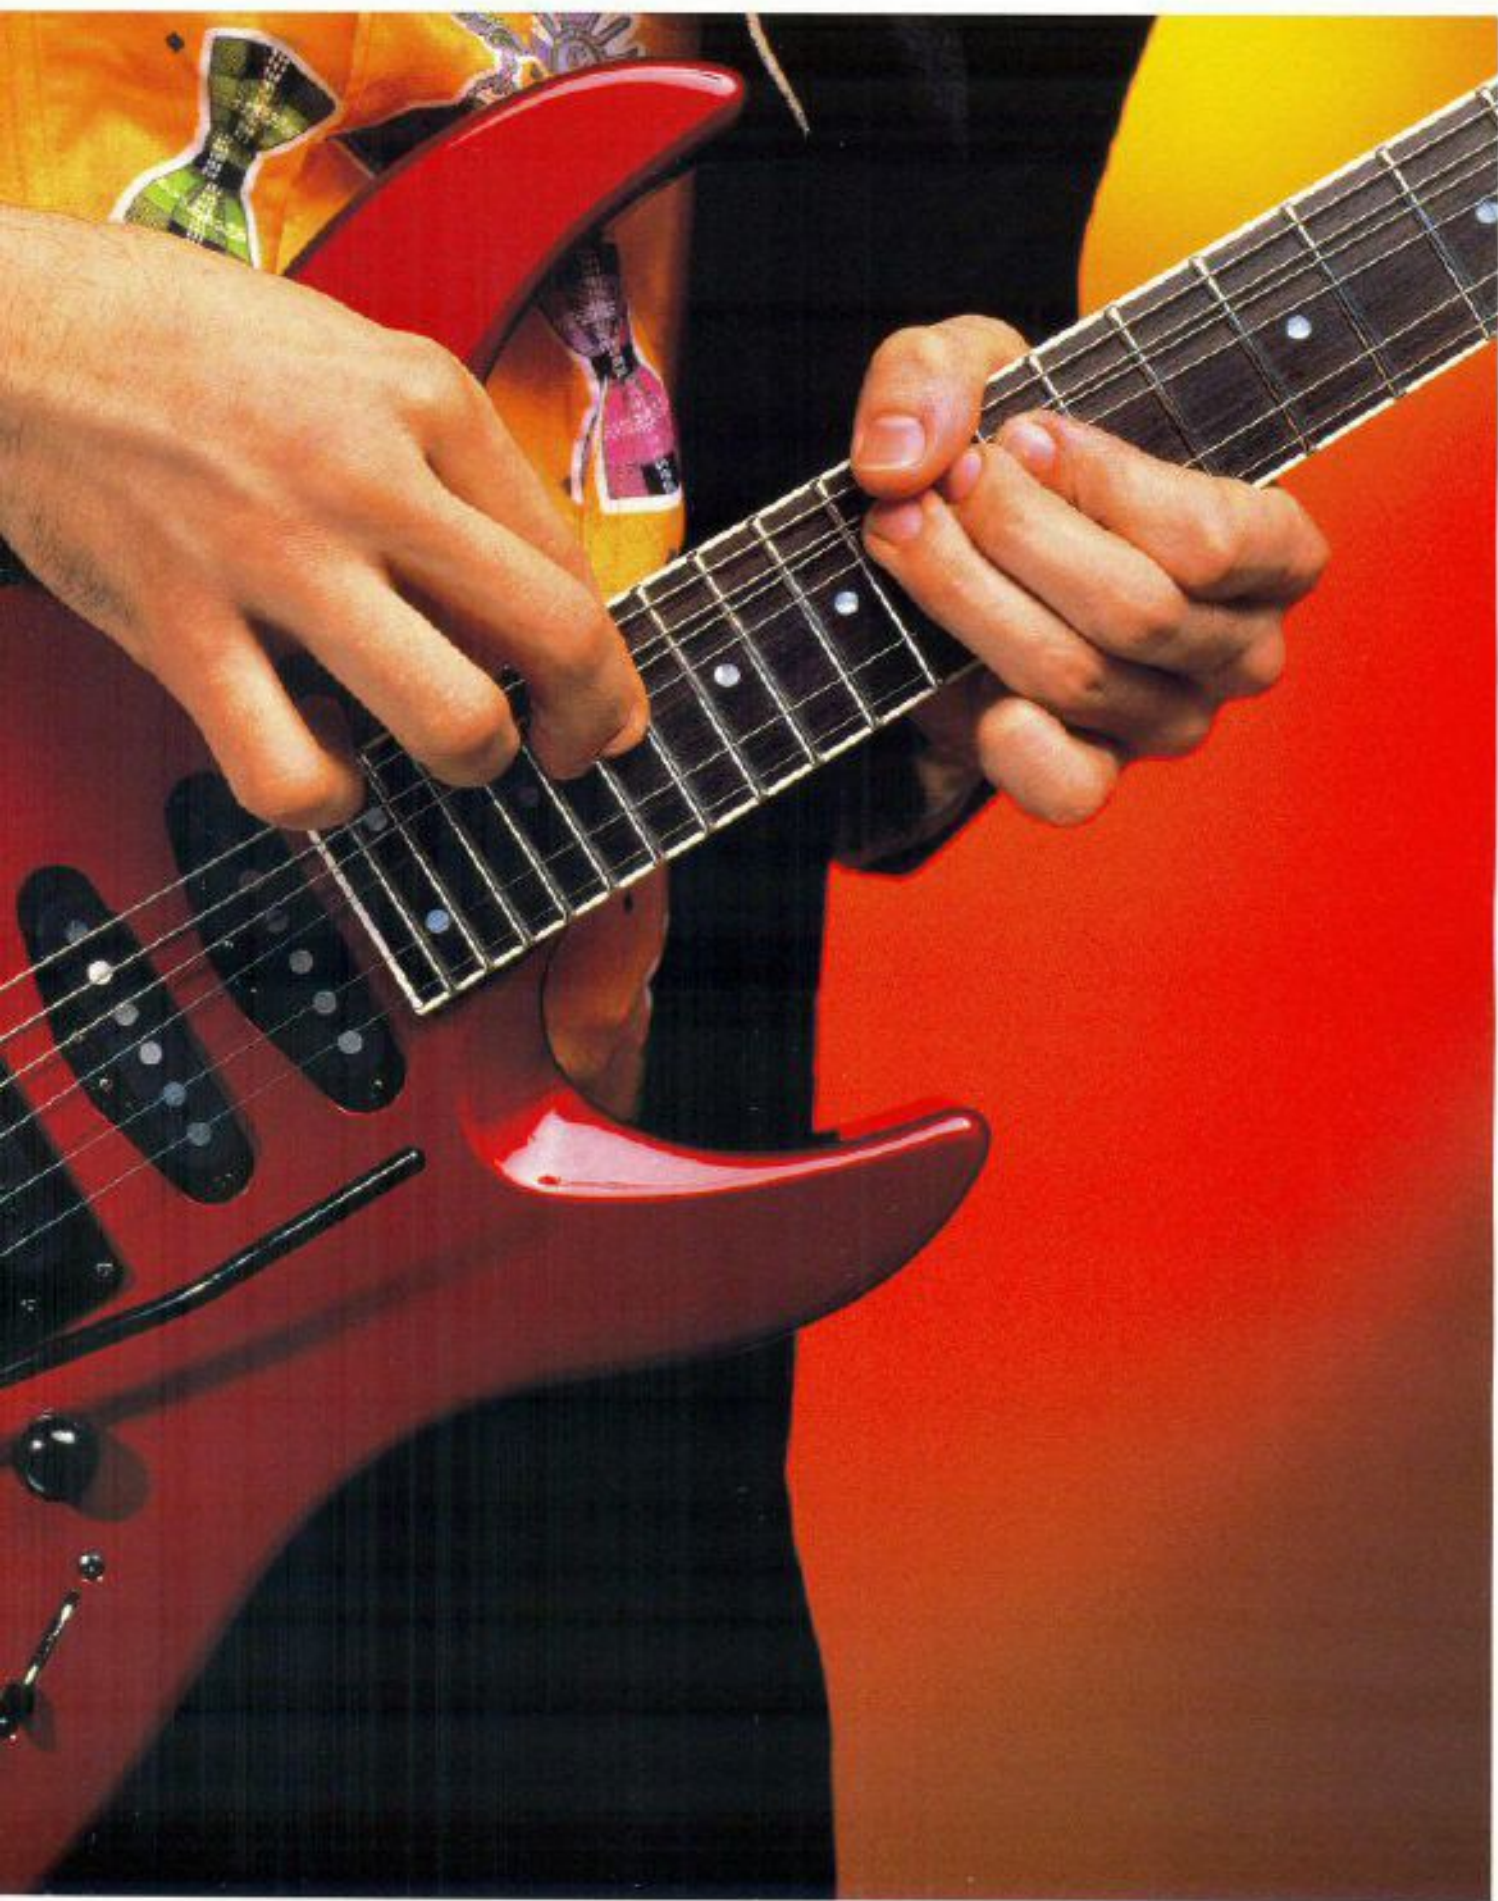

When you put this much into your playing, your instrument should give you back the same energy, the same intensity. It's the details that make an electric guitar or bass respond to your touch, your personality. Working with top players, we anticipate where the music is going and how Yamaha guitars and basses can help you take it there. We control body and neck contours, scale length, fingerboard radius, pickups and other crucial elements that give each instrument its unique personality.

The distinctive character of Yamaha E Guitars and E Basses begins with the living heart of the instrument—wood that is carefully selected and matched for tonal properties, then shaped and finished to Yamaha standards of quality and precision.

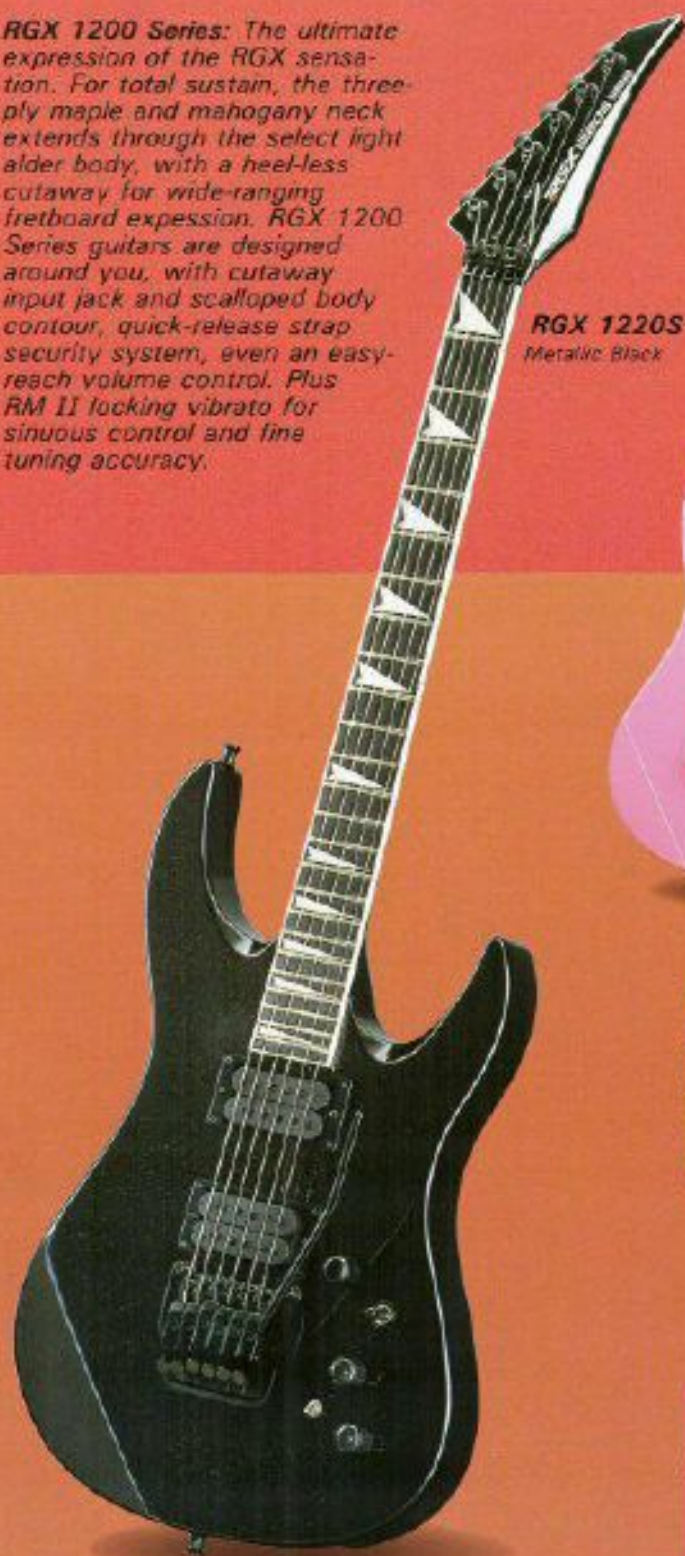

RGX

Fingertip control. Raw power. Instant response. When the music takes you over the top. When the guitar comes alive in your hands.

RGX 1200 Series: The ultimate expression of the RGX sensation. For total sustain, the three-ply maple and mahogany neck extends through the select light alder body, with a heel-less cutaway for wide-ranging fretboard expression. RGX 1200 Series guitars are designed around you, with cutaway input jack and scalloped body contour, quick-release strap security system, even an easy-reach volume control. Plus RM II locking vibrato for sinuous control and fine tuning accuracy.

Playability

The little things define an instrument's physical response to your musical impulses. The instinctively natural feel of Yamaha E Guitars is a result of total concentration on the details.

For the RGX 600 Series, we redesigned the traditional bolt-on neck with an "Access Angle" neck/body joint for unrestricted upper register playing.

The unique "3-D" RGX headstock is pitched at 14° for added downward string tension at the nut.

The cutaway input jack protects the vital connection between guitar and amp. Keeps the jack and cable out of sight for a sleek, modern look.

RGX 600 Series: Light, streamlined, aerodynamic, ready to take your playing to the speed of sound. 24-3/4" scale maple necks with wide-radius rosewood fingerboards for lightning response. A basswood body with scalloped cutaways and "Access Angle" neck/body joints to let you climb high, play free. Advanced design RM II locking vibrato systems that dive deep and come back in tune. The new generation of power guitars is here.

RM II locking vibrato

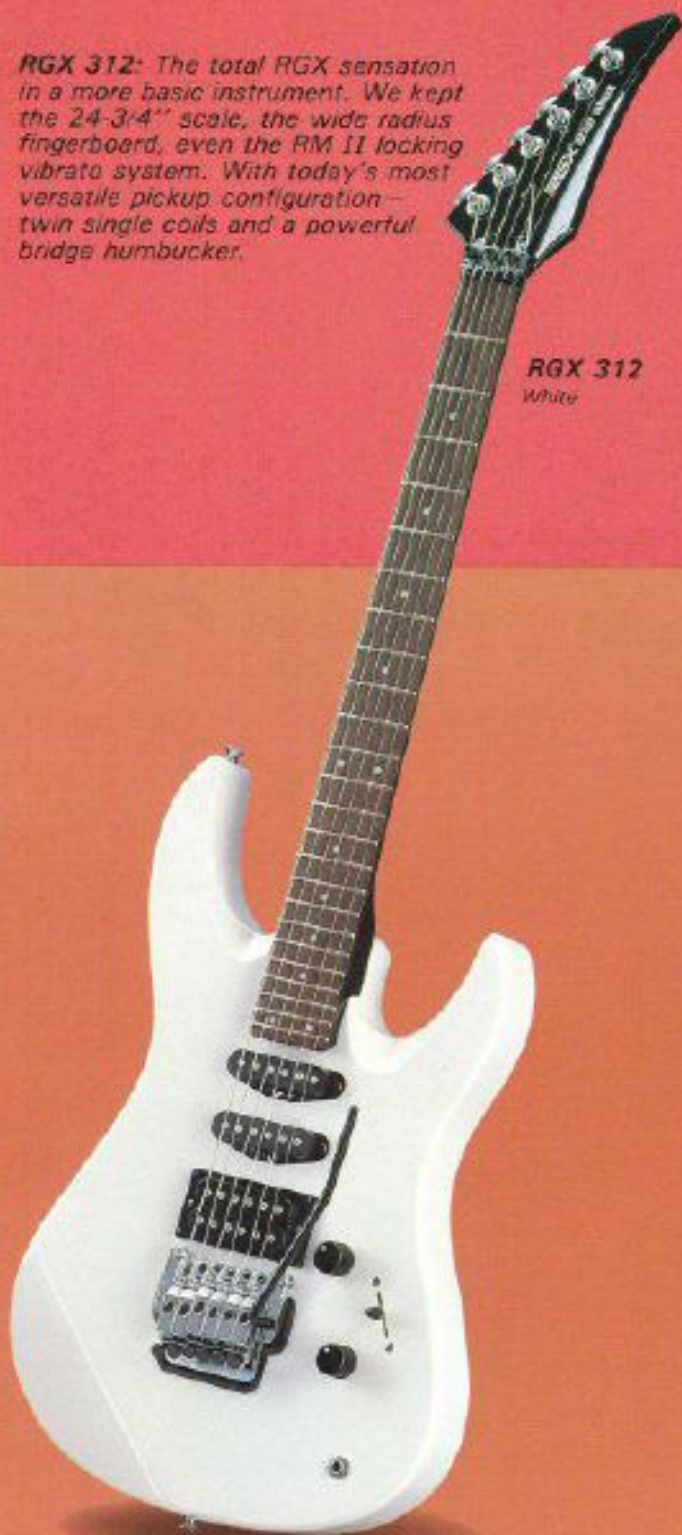

Because vibrato can be a dramatic creative tool, the advanced design RMII locking vibrato system is built for speed, comfort and accuracy: faster string

changing, precise intonation adjustment, knife-edge suspension and the versatility to bend up or down.

RGX

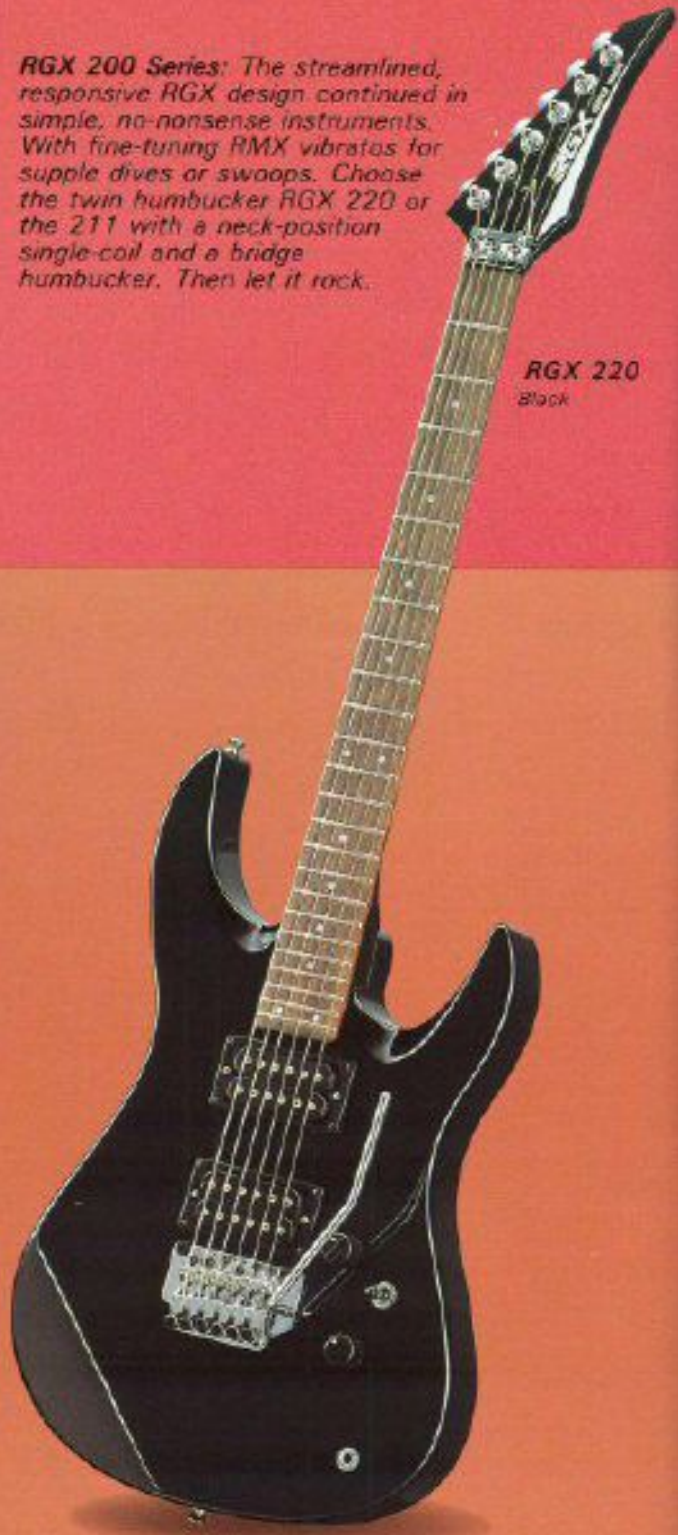

RGX 312: The total RGX sensation in a more basic instrument. We kept the 24-3/4" scale, the wide radius fingerboard, even the RM II locking vibrato system. With today's most versatile pickup configuration—twin single coils and a powerful bridge humbucker.

RGX 312
White

RGX 200 Series: The streamlined, responsive RGX design continued in simple, no-nonsense instruments. With fine-tuning RMX vibratos for supple dives or swoops. Choose the twin humbucker RGX 220 or the 211 with a neck-position single-coil and a bridge humbucker. Then let it rock.

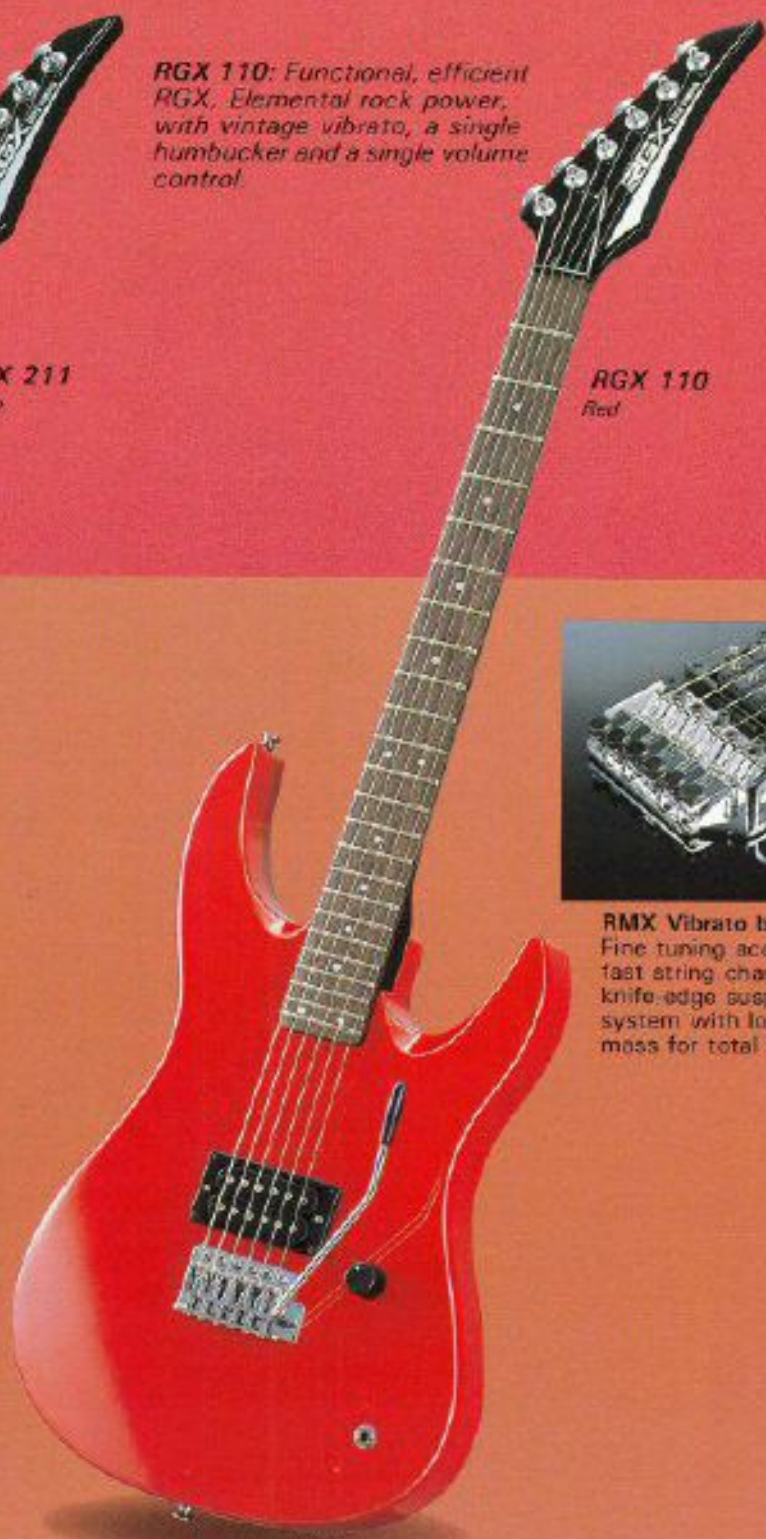

RGX 220

system with low
mass for total sustain.

SE

Musical clarity, tonal accuracy, detailed workmanship. When the guitar is an open window to your music. When you're playing for keeps and playing it from the heart.

SE 1200 Series: Time-tested designs taken to the limit and beyond. Select light alder bodies and heel-less neck-thru-body construction. Elegant bound ebony fingerboards with today's wider radius on three-ply maple/mahogany necks. Versatile pickup combinations with humbuckers for warm, detailed power and single-coils that sting and snap. RM II locking vibrato, quick-release strap security system. These guitars are built to stand up to the most critical situations, with voices as distinctive as your playing.

SE 1220
Power Purple

SE 1212
Metallic Black

SE 1203
Cream White

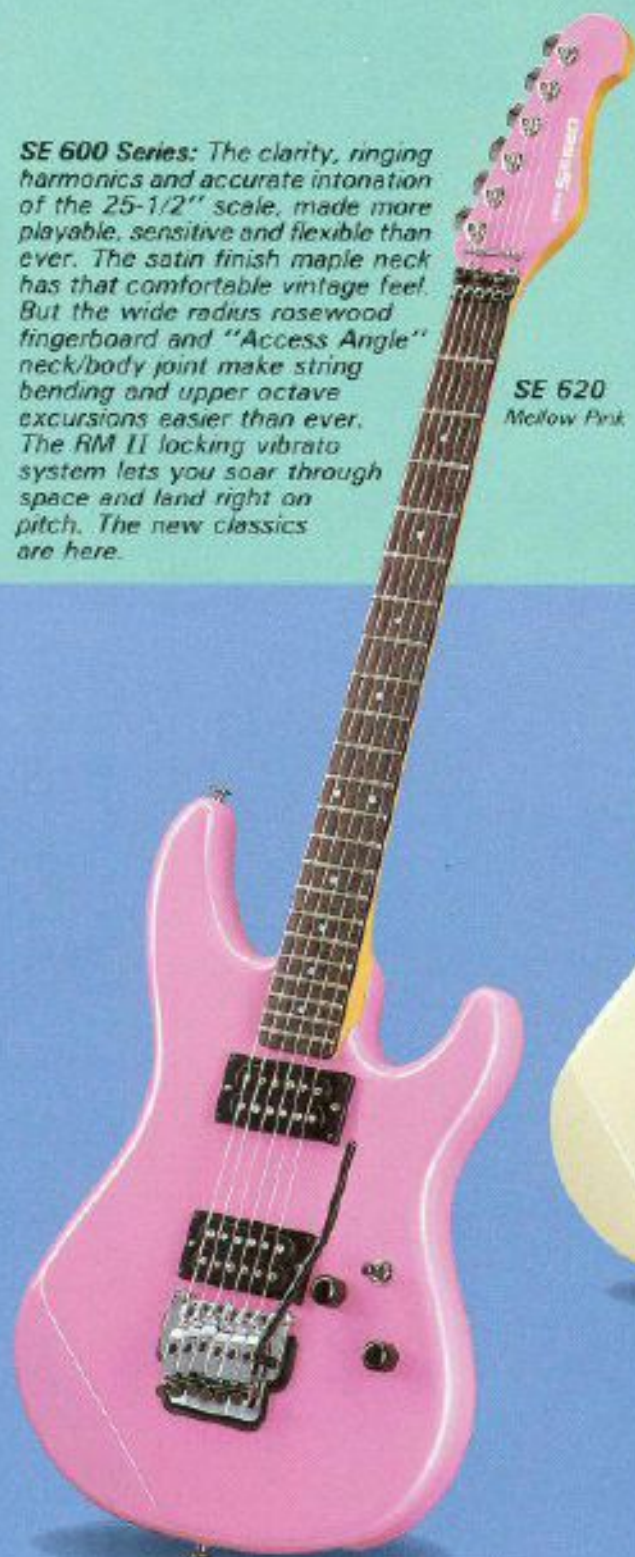

Coil splitters are built into the tone controls of most RGX and SE guitars with humbucking pickups for the widest range of tonal options.

SE 600 Series: The clarity, ringing harmonics and accurate intonation of the 25-1/2" scale, made more playable, sensitive and flexible than ever. The satin finish maple neck has that comfortable vintage feel. But the wide radius rosewood fingerboard and "Access Angle" neck/body joint make string bending and upper octave excursions easier than ever. The RM II locking vibrato system lets you soar through space and land right on pitch. The new classics are here.

SE

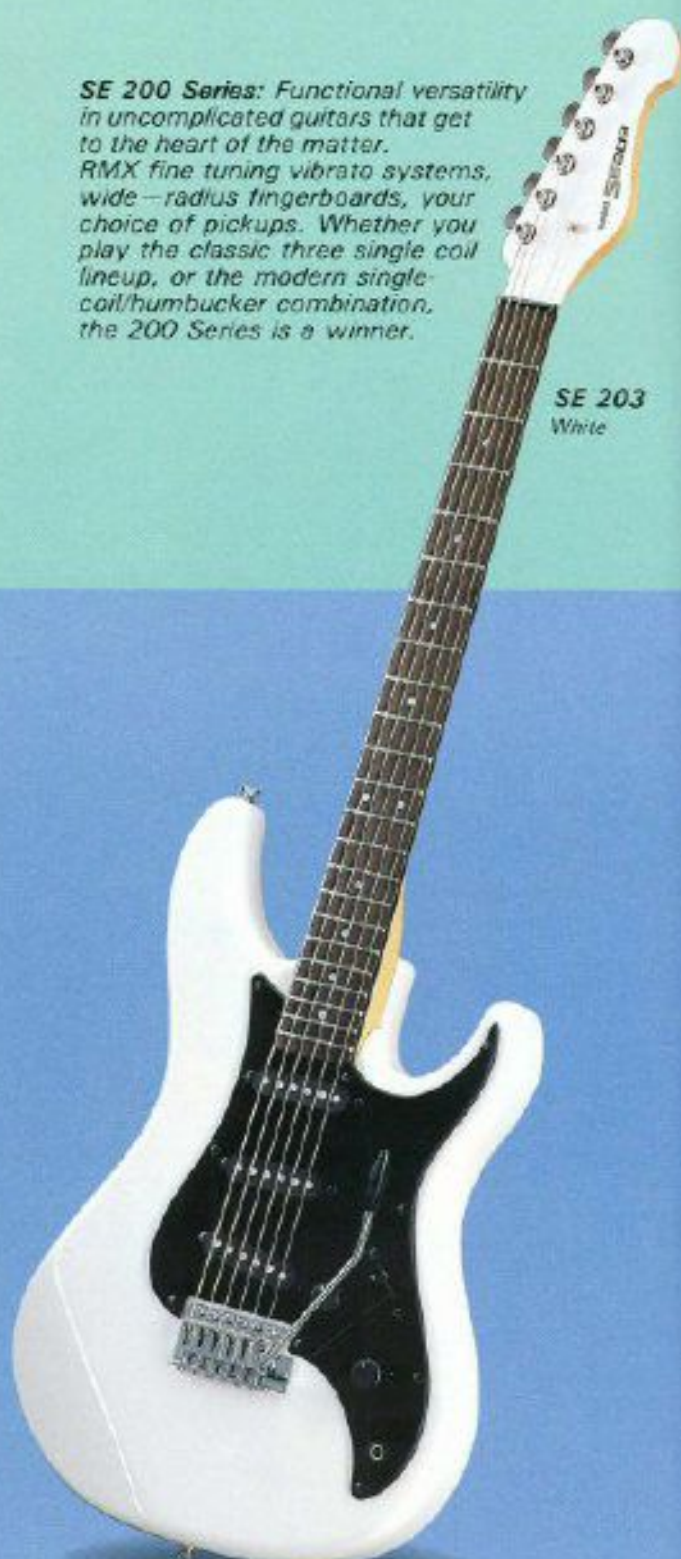

SE 312: The essential elements of the updated SE design are all here — responsive wide radius fingerboard, accurate RM II locking vibrato, two versatile single coils with a bridge humbucker, even a coil splitter for added tonal range. All the basics for great playing.

SE 312
White

SE 200 Series: Functional versatility in uncomplicated guitars that get to the heart of the matter. RMX fine tuning vibrato systems, wide-radius fingerboards, your choice of pickups. Whether you play the classic three single coil lineup, or the modern single-coil/humbucker combination, the 200 Series is a winner.

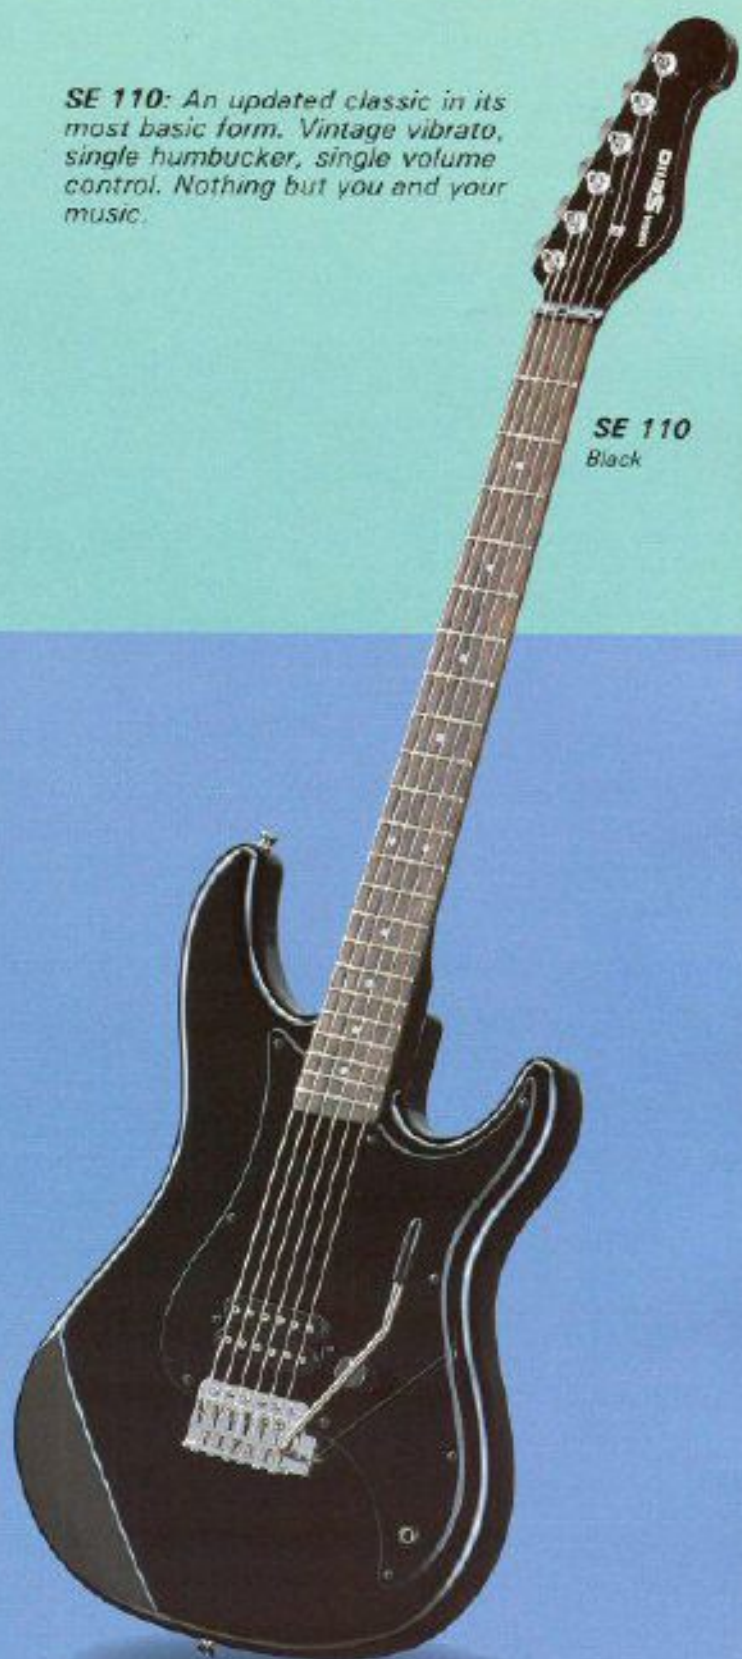

SE 203
White

SE 211
Red

SE 110: An updated classic in its most basic form. Vintage vibrato, single humbucker, single volume control. Nothing but you and your music.

SE 110
Black

SA 2100: Responsive elegance redefined. Mahogany necks set into semi-hollow bodies laminated of beech and birch produce a rich, full tone. The alder sustain block running through the center lets you play at higher volumes without feedback. Yamaha's wide-response Spinex pickups accurately capture every nuance of your playing. Coil splitters expand your tonal resources. Gold hardware, bone nut and ebony fingerboard extend the aura of detailed craftsmanship. A new expression of the guitar tradition with the range to let you explore every bit of your potential.

SA 2100
Burgundy

SA 800: Exceptional versatility in an uncomplicated design. Wide response Spinex pickups let you shape a sound with power and presence. The mahogany neck, rosewood fingerboard and resonant beech/birch semi-hollow body produce a rich tonal palette to color the music any way you choose. One guitar that lets you pull out all the stops, from rock to jazz.

SA 800
Yellow Natural

SA Series guitars feature our innovative Spinex pickups. Yamaha researchers found a way to control the response of each humbucking pickup coil individually. We do it by controlling the carbon content of the steel in the pole pieces. Low carbon steel produces a crisp, bright tonality; high carbon pole pieces emphasize the warmth and richness of the classic humbucking sound. Together they produce a wide response, a unique tone full of character, spark and intimate detail. When you hear Spinex, you'll know what your guitar truly sounds like.

AE

AE 1200S: Drawing out a unique voice from the heart of the wood. Solid spruce top, birch back and sides, dove-tailed mahogany neck and ebony fingerboard. Alnico humbucking pickups for a tone radiant with vintage warmth, with coil splitters for lean new textural possibilities. Tailor your sound with a warm carved Grenadilla wood bridge or the crisp definition of a gold-plated multivector adjustable metal bridge. This harmonious combination of select materials is our most refined expression of the craft and art of luthiery.

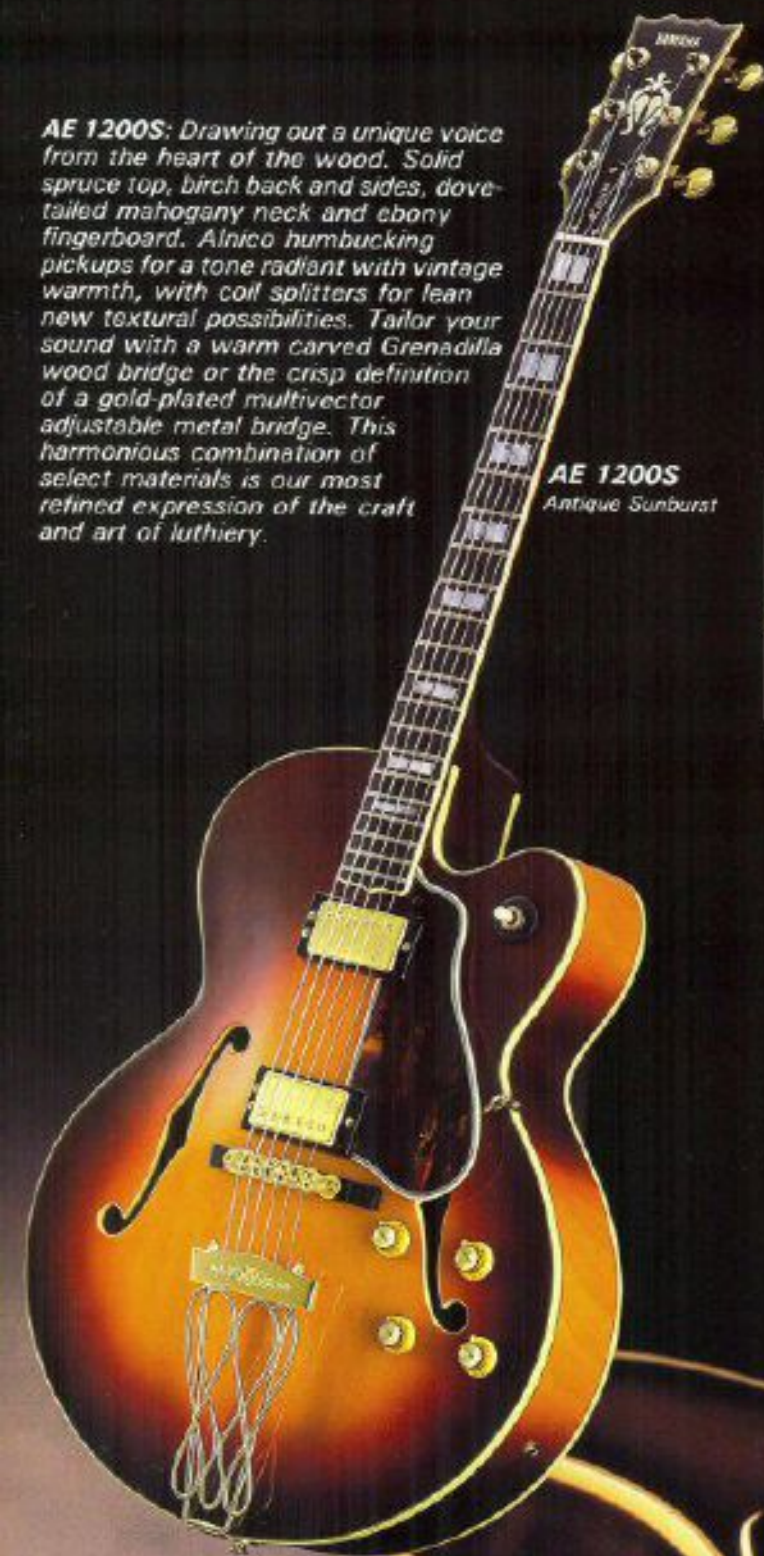

AE 1200S
Antique Sunburst

Every AE 1200S comes with two bridges. One is carved from warm, resonant Grenadilla wood, the other precision-cast and gold plated, with multivector adjustments for overall height and individual intonation. Customize your guitar for your string gauges and playing style.

An intimate knowledge of wood, sound and the way they interact goes into every Yamaha guitar. And the sum of all that experience is this AE 1200S top, carved from a solid piece of select aged spruce.

MB

Original sounds, fast moves, propulsive power. When your music is moving in dynamic directions. When a medium-scale double octave bass speaks with the strength and clarity of a long-scale instrument.

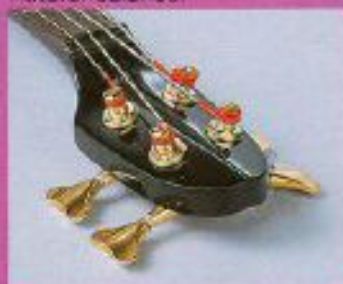

MB II: To make the bass faster, more comfortable and responsive, yet just as powerful. The goal that excites the Motion Bass's original design. The perfectly balanced, anatomically contoured body virtually becomes part of you. Deep cutaways let you explore all 24 frets on the fast medium-scale fingerboard. Dual 16 pole humbucking pickups with coil splitting take you from a solid bottom you can hear and feel to a crisp, percussive attack.

MB II
Pearl White

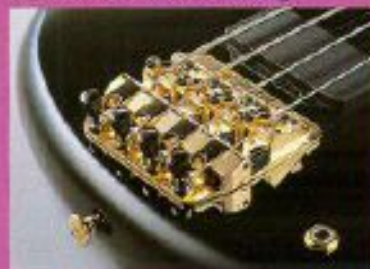

MB III: Essential Motion, with a massive die-cast sustain bridge to bring out every note on the 24 fret fingerboard. Plus a medium scale for faster, easier fingering, and twin 16 pole humbuckers for a powerful, driving bass sound.

MB III
Power Purple

The Motion Bass headstock is sculpted for easier access to the tuners, streamlined for natural balance.

The die-cast MB II bridge incorporates a fine tuning mechanism for precise pitch adjustment. Height and intonation are adjustable for each string.

16 pole humbuckers pump out the power at the heart of the bass sound. The MB II adds more tonal options with coil splitters.

BX

BX 1: The headless idea with refined comfort and playability. The neck extends slightly beyond the "zero fret" for added thumb support when fingering low notes. The BX string lock and fine tuning bridge work with any ball-end strings you choose. The three-ply maple/mahogany neck extends through the body, with an ebony fingerboard for a crisp, even response over all 24 frets. Humbucking 16 pole pickups give you the power to drive the music.

BX 1
Black

BX 5: Five string range, headless efficiency, the powerfully centered sound of our 16 pole humbucking bass pickups—put them all together and you have the BX 5. From the sculptured body to the three ply maple/mahogany neck and two-octave ebony fingerboard, this one is *fast*.

BX 5
Black

Coil splitters add to the tonal versatility of the twin 16 pole humbucking bass pickups.

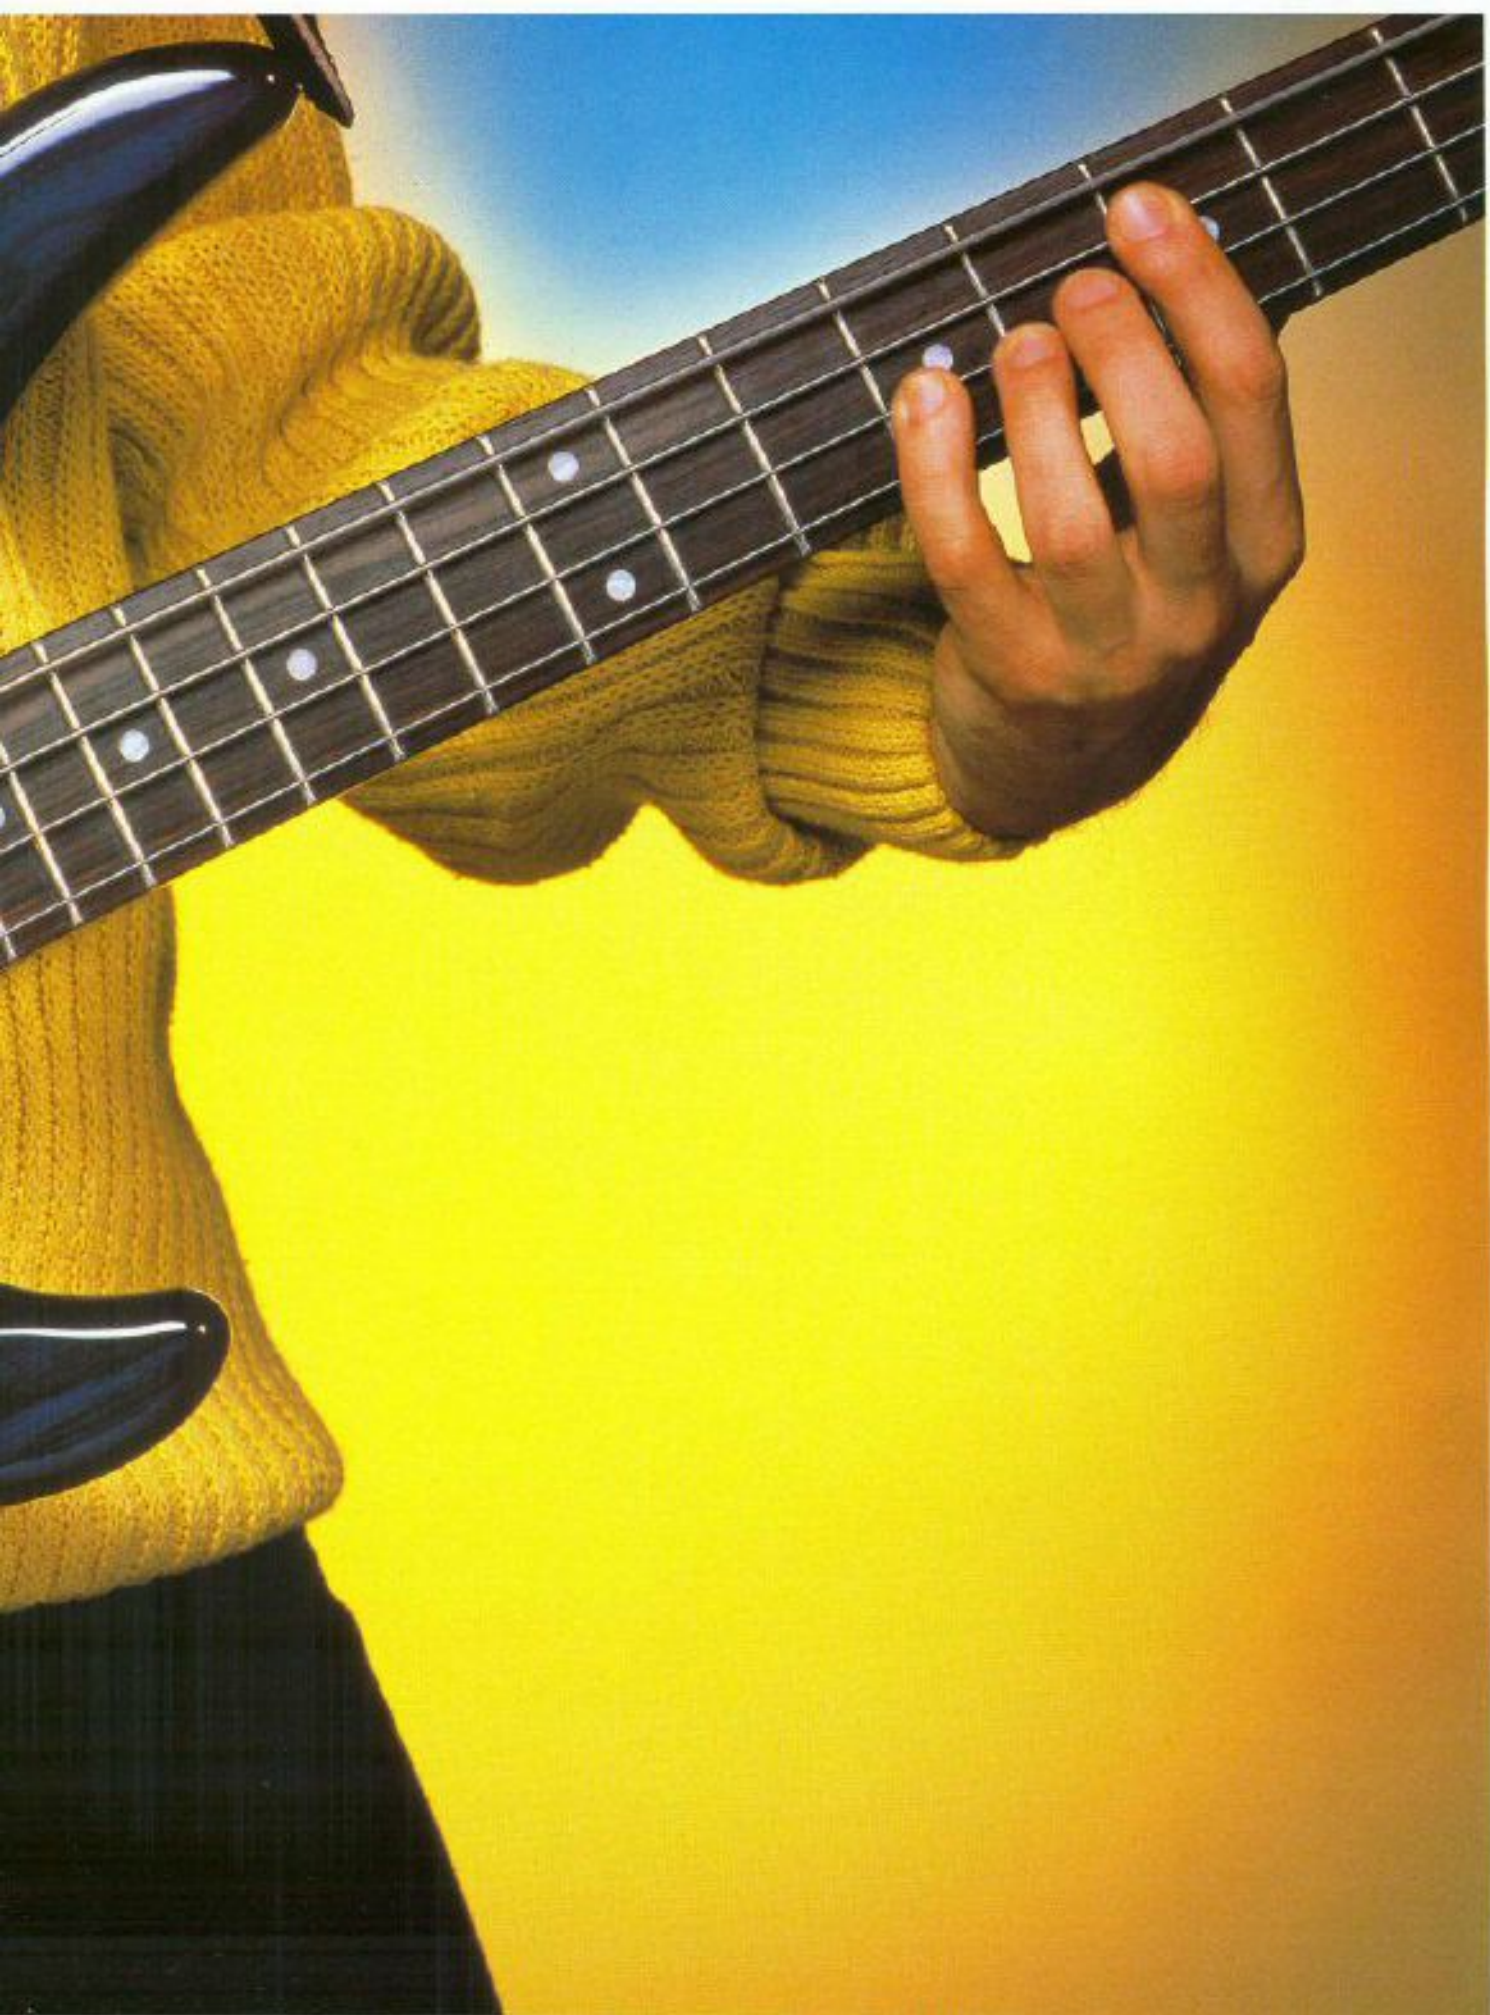

The die-cast BX bridge has fine tuners for accurate pitch control. The quick-change string saddles accept any ball end strings.

RBX

Streamlined comfort, effortless balance, penetrating tone. When you're searching for modern music that moves. When your imagination transforms the bass into fluid expression.

RBX

RBX 800: Designed to make the bass a total extension of your musical personality. A light, naturally balanced body with deep contoured cutaways and "Access Angle" bolt-on construction that lets you use the full range. Maple neck and rosewood fingerboard for a crisp sound with depth and power. Die-cast fine tuning bridge for the precise pitch your music demands. A classic pickup combination updated, with a humbucking split single coil and a bar magnet bridge pickup. A rainbow of tone colors from the mix control with master tone and volume. Solid color RBX 800s have alder bodies and black hardware. Custom finish RBX 800s in translucent red or blue let the grain of their ash bodies show through and highlight it with gold-plated hardware.

RBX 800
Pearl White

RBX 800
Custom Blue Translucent

RBX 5: Designed to give you total access to the expanded five string range. The "Access Angle" neck-body joint and deep sculpted cutaways let you use all 22 frets on the rosewood fingerboard. The low-mass bridge helps bring out the warmth and character of the maple neck and basswood body. Whether you string it for earth shaking low notes or upper melodic extensions, this five string is rock solid and instantly responsive.

RBX 5
Pearl White

RBX 550: A powerful, solid instrument with total RBX flexibility. Heavy die-cast bridge for sustain and punch. "Access Angle" neck-body joint and double cutaways for stand-out solos. Dual 16 pole humbuckers for a driving sound—with coil splitters for extra versatility.

RBX 550
Candy Apple Red

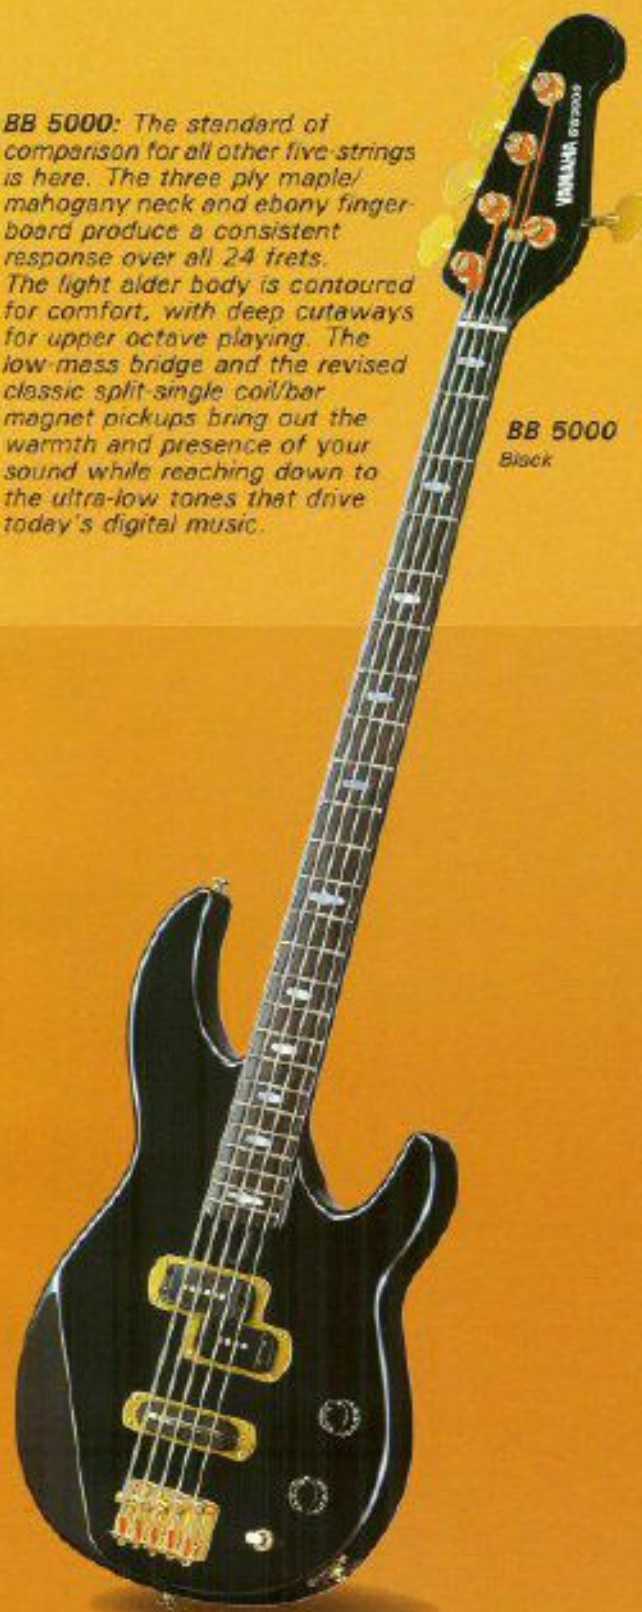

RBX 300: The basics of bass excellence. Maple neck and rosewood fingerboard, diecast low-mass bridge for a lively penetrating tone. The classic split single coil pickup, updated to cancel hum.

RBX 300
Black

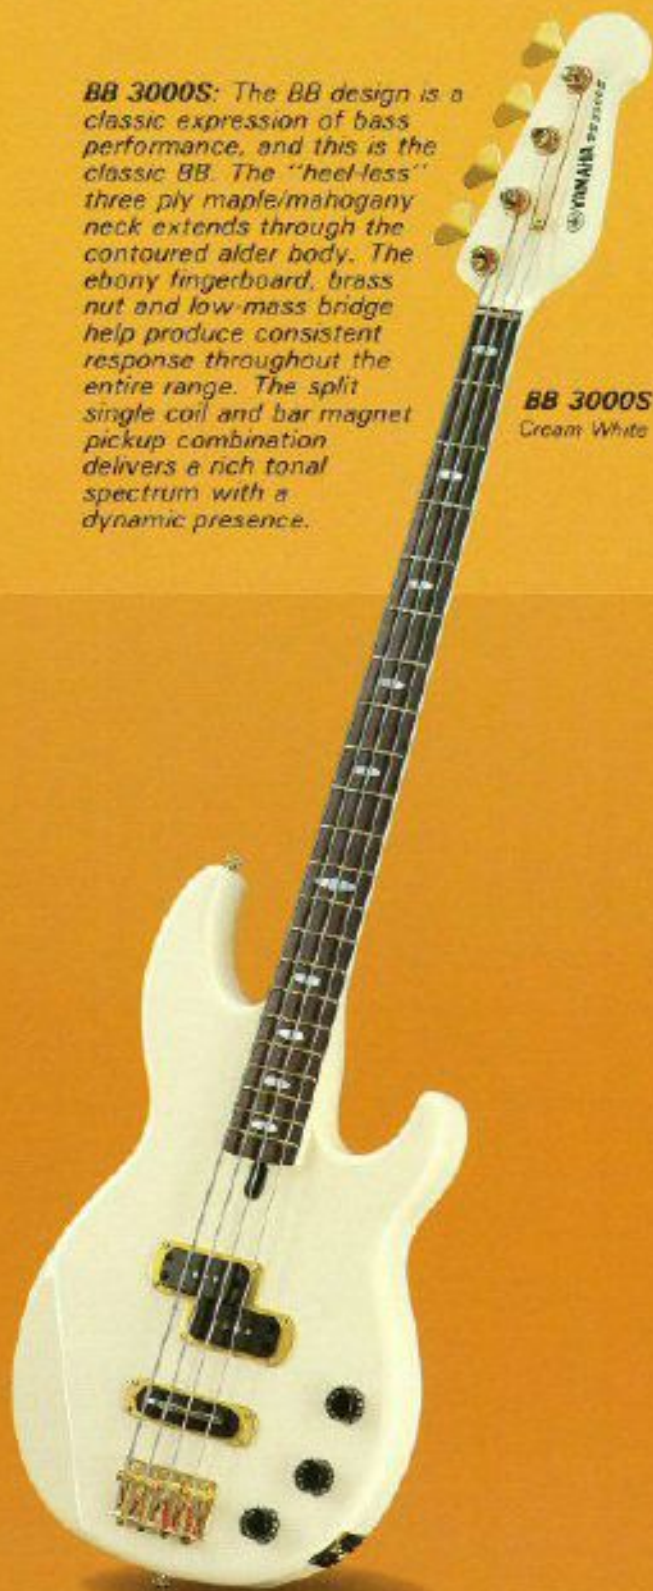

BB 5000: The standard of comparison for all other five-strings is here. The three ply maple/mahogany neck and ebony fingerboard produce a consistent response over all 24 frets. The light alder body is contoured for comfort, with deep cutaways for upper octave playing. The low-mass bridge and the revised classic split-single coil/bar magnet pickups bring out the warmth and presence of your sound while reaching down to the ultra-low tones that drive today's digital music.

BB 5000
Black

BB 3000S: The BB design is a classic expression of bass performance, and this is the classic BB. The "heel-less" three ply maple/mahogany neck extends through the contoured alder body. The ebony fingerboard, brass nut and low-mass bridge help produce consistent response throughout the entire range. The split single coil and bar magnet pickup combination delivers a rich tonal spectrum with a dynamic presence.

BB 3000S
Cream White

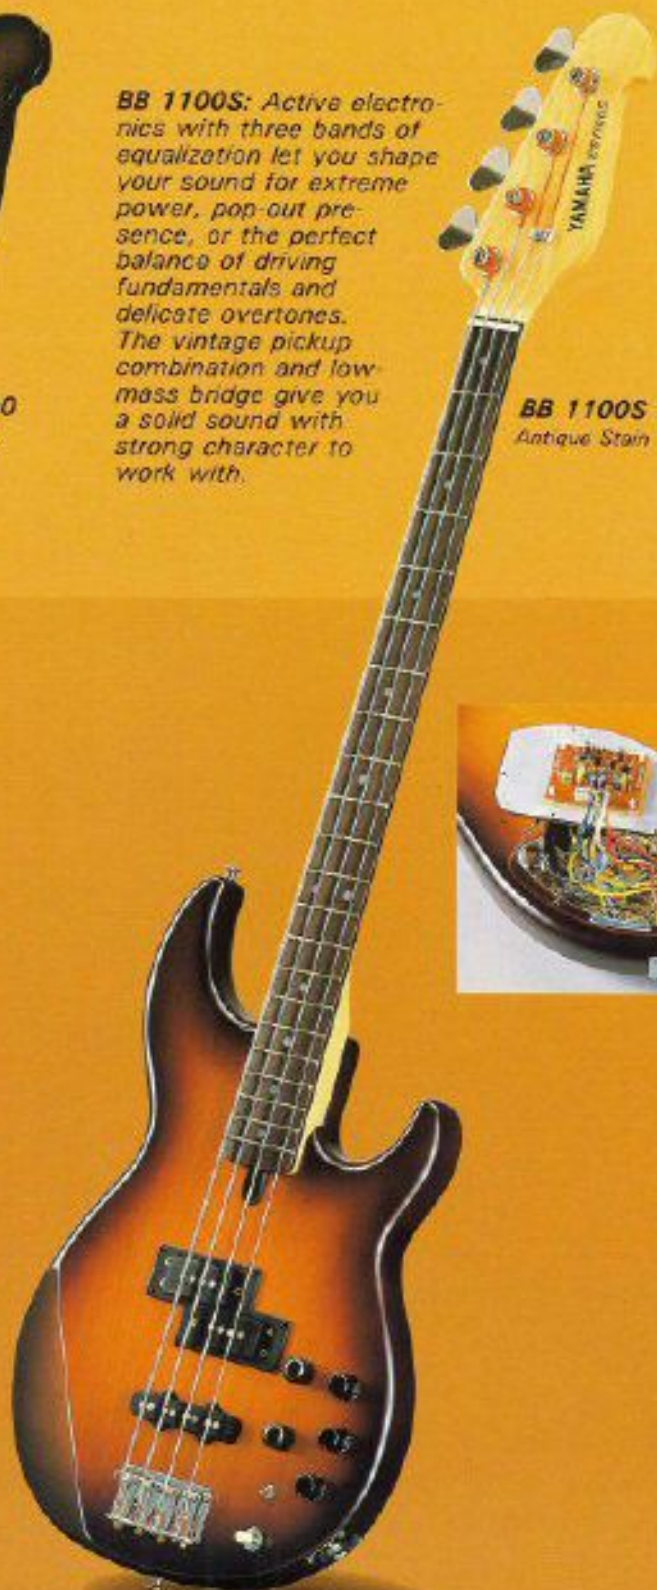

BB 1600: Bringing BB innovations to traditional bolt-on design. The maple neck and rosewood fingerboard are perfect partners for the light alder body and split single-coil/bar magnet pickups. Gold plated hardware makes this bass stand on its own as a modern classic.

BB 1600
Wine Red

BB 1100S: Active electronics with three bands of equalization let you shape your sound for extreme power, pop-out presence, or the perfect balance of driving fundamentals and delicate overtones. The vintage pickup combination and low-mass bridge give you a solid sound with strong character to work with.

BB 1100S
Antique Stain

BB 450: A hot one for tomorrow's music. Player preferred BB features like maple neck and rosewood fingerboard, alder body, low-mass bridge and a combination of vintage-style pickups.

BB 450
Burnt Orange

BB 300: The back-to-basics BB gives you all the playability and punch you need. Maple neck, rosewood fingerboard, low-mass bridge for a tone that lets the character of the wood emerge in your playing.

BB 300
Candy Apple Red

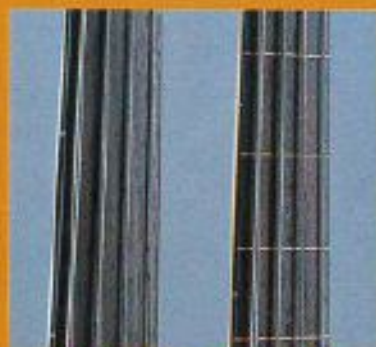

BB 3000SF: Fretless E Bass is all about tonal shading and fluid expression – the BB 3000SF gives you both with an ebony fingerboard, alder body and neck-through-body construction using three plys of maple and mahogany. The low-mass bridge lets the radiant warmth of these select woods shine through every note.

BB 3000SF
Cream White

BB 350F: Fluid expression in a straightforward fretless bass. The rosewood fingerboard has inlaid maple strips to help you key into the fret positions visually. The low-mass bridge and vintage style pick-up combination bring out all the subtle shadings of fretless playing.
